

ABSOLUTE GRAY CODE ENCODER

PS-4256-12-DDP-MLU

Ideal for Rugged Environments

where accurate position and long term reliability are required

PS-4456-12-DDP-MLU (NEMA 4X)

PS-4256-12-DDP-MLU (NEMA 12)

MLU option adds extra protection for input voltage

Provides Position to PLC Standard DC Inputs
or Directly to Gray Code Modules

Features

- Absolute 8 Bit Sourcing* Output
- Rugged Steel Enclosure
- Input Voltage Protection
- 3/4" Shaft with Ball Bearings
- NEMA 12 or NEMA 4X

Applications

- Saw Mills
- Packaging Machines
- Assembly Machines
- Indexing Equipment

Specifications:

Input Voltage 12 - 30 VDC | Output 12 - 30 VDC | Output Current 50 mA each bit | Ambient temp 0-60 C
